The following is an examiner's statement of reason for allowance:

Claims 8-11 and 13-14 are allowed since the prior made of record and considered pertinent to the applicant's disclosure does not teach or suggest the claimed limitations. Sun (U.S. Pat. 6,448,720), taken individually or in combination, do not teach the claimed invention as a circuit for operating one or more low pressure gas discharge lamps, the haft-bridge switching circuit operating substantially 180^0 out of phase from the second haft-bridge switching circuit, a first resonant circuit, **the second resonant circuit having an input coupled to the output of said second half-bridge switching circuit and a second output adapted to connect to a second end of said low pressure gas discharge lamp.**
